"The turn of the anti-silver men has now come, and when they attempt anything we'll give them what they gave us last session. I believe a bill to repeal the Sherman law will be reported by the Banking and Currency Committee. Yes, I have looked into the matter, and believe there is a majority of that committee in favor of repeal of the law. The amateur theatricals and concert at Brook Hill " on Wednesday evening were a brilliant success. Mrs. Stewart and her charming daughters made their young charming daughters made their young friends extremely happy, and their beautiful home was in itself a scene to be always remembered. It is the increase of the money of the country that is at the bottom of the country that is at the bottom of the counting will be done at this session on the silver question, but I believe next session will see the Sherman law repealed. You see, there are 128 Republicans in the next House. Nearly all of them will vote for its repeal. The whole Republican press, you notice, is calling for its repeal. I can put my finger on seventy or eighty Democrats in the next House who will vote the same way. I believe President Cleveland will insist on its repeal even before any tariff legislation its accomplished, and there will be weak, kneed Democrats who will fail into line," by Mr. Stewart Hume in a golden wig, with long curls and a very "fetching," costume and hat. Her famous "Tarra-ra-boom-de-ay" song, with improvised verses containing amosing local and personal hits, was veoiforously applauded.

LITTLE ROCK'S MAYOR ACTS. Sr. Louis, December 31.—Information comes from Little Rock that the unusual mortality in the pententiary there has attracted so much attention and caused so much comment that Mayor Fletcher vesterday instructed City-Physician Dickinson to make a thorough samitary examination of the prison. Dr. Dickinson in his report recommends the enforcement of sanitary regulations to the full limit. As a result of this, lime and other disinfectants were taken to the prison this morning and 200 convicts were set to work cleaning the 200 convicts were set to work cleaning the premises.

Mayor Fletcher has also directed the arrest of Secretary-of-State Chism and Attorney-General Atkinson, of the penitentiary board; Prison-Inspector Carroll, S. M. Apperson, who represents the lessees of the penitentiary, and Calvin Pemberton, warden of the prison, on the charge of violating the sanitary ordinances. Mayor Fletcher declares that the epidemic at the penitentiary is the culmination of the lease system, and that the responsibility rests with the State. He intends to have every person arrested who has had anything to do with the management of the State prison except the Governor.

(By telegraph to the Dispatch.) Sr. Louis, Mo., December 31.—The City Council met to-night prepared to act as a high court of impeachment upon the case of the suspended city treasurer, Michael Foerstel. Shortly after assembling, however, a new resignation was received, this one addressed by Mr. Foerstel to the Council, through its president, C. P. Walbridge. A short debate was sufficient to settle the matter, and after receiving the report of the investigating committee and also an acknowledgment of the shortage from Mr. Foerstel, the Council, on the ground that the city was fully secured, that Mr. Foerstel was only indirectly responsible, and that he had already suffered sufficiently and was willing to make full reparation for his son's acts, accepted the resignation, thus putting an out to Sr. Louis, Mo., December 31. PROPOSED MERCANTILE REFORM. and Collecting.

Rey Yons, December 31.—Members of the Mercantile Exchange complain that there is a lack of uniformity in giving credits and discounts and in making collections by wholesale merchants. According to their representations, a spirit of rivalry has been fostered which has created a great deal of confusion and resulted in detriment to the interested merchants, and more especially those engaged in the dry goods and grocery trade. The advocates of a reform say that the beginning of a new year is the best time to "turn over a new leaf." They suggest the drawing up of an agreement, to which every wholesaler in the city will be asked to append his signature. The exchange, however, will not be asked to give official endorsement of the agreement.

Railway-System Federation. [By telegraph to the Dispatch.] Railway-System Federation.

[By telegraph to the Dispatch.]

CEDAR RAPIDS, Iowa, December 31.—A

"System Federation" was agreed upon
by the representatives of the organized
railroad employes in conference in this
city. The term is used in contradistinction to national federation, and means
that the members of the various orders on
any one system offered will be left to decide for themselves whether or not they
will unite, and such action will be binding on them alone. Conservative members
of the conference feel they have gained a
point against ill-advised strikes or hasty
action of any sort, Under the new
plan when members of any organization have a grievance against their
road their grievance committee must
first do all in their power to settle it.
When they fail the executive head of the
order must be called in and do his best to
effect a settlement. Not until both of
these have failed can the executive heads
of all the organizations in the federation
be called upon, and they must be unanimous before a strike can be ordered. But
when a strike is ordered all must go out.
It will be seen that the organization is
simple and requires no new officers. The
orders interested are those of the conductors, switchmen, firemen, trainmen,
and telegraphers. As the engineers vefed ductors, switchmen, firemen, trainmen, and telegraphers. As the engineers voted at the last convention for a federation with the same fundamental principles, it is thought they may eventually come in.

Annapolis, Mp., December 31.—Naval-Cadet J. S. Shaw, second class, of Minnescota: Naval-Cadet Emery Winship, second class, of Georgia, and several other cadets are under investigation at the Naval Academy for alleged violation of that article of the regulations which forbids the lessening of respect due to and the questioning of the authority of the commandant of the post. Whilst the sixteen cadets, who were recently confined on the Santee for escorting Fred. L. Perkins, a dismissed cadet, to the main gate in a body after his fight with Cadet Bryant, Cadet Shaw wrote a letter to his father stating that the Santee was not fit to be quartered on and complained of alleged indignities to the imprisoned squad. Several of the squad certified to the correctness of his statement. Cadet Winship wrote a letter to his congressman complaining of his treatment. The letter found its way back to Superintendent Kythian. Cadet Shaw is one of the brightest men at the academy. Naval-Cadet John R. Berryman, of Ohio, second class, has resigned.

THE NEW GOLD-HELDS

[By telegraph to the Dispatch.]

Salt Lake, Utar, December Sl.—The prenarations for trips to the San Juan placer country from this place are proceeding rapidly. The excitement here is increasing every hour and the rush to the gold-fields is increasing day by day. Old-time prospectors and speculators, who want to get into the country at the earliest moment, leave the railroad at Mancoes and hire an outfit or buy it outright.

A. T. Mills, who has just returned from the diggings, says the placers are the richest ever discovered in the United States.

The San Juan is the northern boundary of Navajo reservation, and the river enters the Colorade six miles this side of the Arizona line. The Jan Juan is a drop of 3,300 feet from the general level, and there is only one place to get down thereto—a trail on the Arizona side. The canon is from a quarter to a half mile in width.
